area, the entire brigade is being shifted to Borneo and is being replaced by a loyal Javanese brigade now deployed there. Other loyal troops are returning from Sumatra where they have been stationed for several months; the first elements of these forces were scheduled to arrive in Java on 27 October.

6. In East Java a potentially serious situation exists in the easternmost part of the province. This area is believed to be a long-prepared PKI hideout from which the Communists have now launched terrorist activity.

7. In North Sumatra, where the PKI had accumulated considerable strength, the former leftist army commander has been reassigned to Djakarta and replaced with the intensely anti-Communist Gen. Sobiran.

9. After several changes of plan, Brig. Gen. Sukendro, who is close to General Nasution, left Indonesia on 29 October for a three-month tour of Asia, Africa, and Europe. He is leaving on Sukarno's orders; his departure is obviously intended to deny Nasution a valuable staff officer.
